

Plan Reading and Duty of Care

Are you aware that your **MUST** have current plans on-site while ever the project is in progress? Ignore these requirements and have a utility strike and I suggest that you have a large and paid up insurance policy. You have failed to meet your Duty of Care requirements and will be held liable for the damages

PLAN READING & DUTY OF CARE

This course will see students who successfully complete the 1/2-day face-to-face or on-line Plan Reading & Duty of Care course be able to diligently fulfil their requirements to the asset owner and be confident in interpreting all plans provided. As part of your commitment to delivering an efficient and safe service, all companies should ensure that their staff have a thorough understanding of the asset owners' requirements.

The course is contextualised for each individual state, which means that you will learn material that is specific to where you are located. Obviously, there are consistencies for those asset owners who operate nationally for example Telstra, Optus – but added to these will be the asset owners that only operate in your geographical area.

Locating Unlimited is a Registered Training Organisation delivering both accredited and non-accredited training. **RTO ID45518**

Delivery Method

On-line: Self-paced – easy to use modular format

Award
